

# Egg Art International

## Listing and Fee Information:

Many artists around the world have asked for help in selling their egg art. So, we have listened. EAI is the only international organization dedicated to egg art with over 7000 visitors our first year alone. We decided to serve as a forum to assist in bringing artists and possible buyers together for their mutual benefit. Since we are not an online sales organization such as Etsy or eBay, we decided that a flat listing fee was the best solution. The listing fee is straight forward and there are no complex listing algorithms, etc. All fees collected will go to furthering our mission of education and the promotion of egg art and egg artists worldwide.

1. Artists must be a member of EAI. The membership is simple and free.
2. The fee is 9% of the listing price. This covers the initial set up and the first 3 months on the website.
3. All monetary transactions are between the artist and purchaser.
4. EAI does not involve itself with any disputes between the artist and purchaser.
5. EAI expects the artist to answer all emails from purchasers and to promptly notify EAI thru the contact page when the egg is sold.
6. EAI recommends artists use a service such as PayPal or other similar programs to conduct all sales for their protection against fraud.
7. EAI does not collect money from any purchasers or taxes. That is between the artist and purchaser.
8. No refunds of listing fees.
9. Any questions please contact us thru the contact page.

Thank you,

The Team at Egg Art International
